

'music in the making'

get into music

Instrument Workshops

Instrument workshops are designed for both complete novices and those who play a bit already. If you've ever fancied trying to play one of these instruments, or you want to improve your existing skills then this is for you! Some instruments will be provided, or bring your own if you have one.

Jazz workshops

The jazz workshops are for musicians on any instrument who have a minimum playing level of Grade 3 or equivalent standard. However, no previous jazz or improvisation experience is necessary.

All the workshops are practical so you'll get to play! They will be led by Rob Hall, one of the UK's leading saxophone and clarinet players with many years experience in music education.
